

Parent Feedback - MFMI Kids Choir 2023

Saoirse is **singing everyday** and performing at home everyday.

Her solo singing has **increased her confidence**.

I do see my child being **more confident on stage and more comfortable in meeting new people & visiting new places for the performance**.

Overall, under the guidance of Ms. Lydia, Ahaana has evolved positively !

The song choices were awesome with **great melody and harmony**, yet **challenging** and never repetitive. Bella loved singing all of them with very noticeable improvements. Specially, MFMI Kids Choir is a very **warm hearted team** (teachers and staff, kids, parents, volunteers) and Bella also **learned to be kind, respectful, and willing to set an example and help others**.

Discipline is a good virtue that my child has picked up with regular and **timely attendance and practices**. Secondly, the ability to perform without parents handholding is a positive. Lastly, my child's stage fright no longer exists thanks to choir performances. Thank you with all my heart.

She can **make friends very easily** now.

She learned a **lot of songs** this time.

When Shamika first joined the choir, she was very shy and hesitant to perform in front of others. However, under Ms. Lydia's guidance and encouragement, she has **blossomed into a confident singer**. She has also made many new friends in the choir, and she loves attending all of the events.
